WHAT HAPPENED

FROM THE WEEK'S PRS, DELVING & MAILING LIST

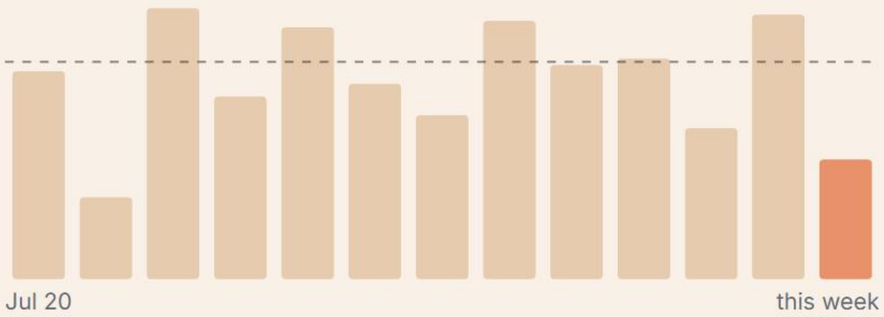

A significant technical focus on improving node connectivity and initial synchronization,...

Continued development and hardening of advanced cryptographic features, with progress on...

WELCOME First PR merged: yashspidey

SIGNAL OF THE WEEK

A quieter week for merges: 19 PRs merged, 45% below the 8-week typical of 34.5.

13 weeks · dashed line = typical (median of the previous 8 weeks)

RELEASE **Bitcoin Core 32.0** · Release candidate testing (32.0rc4) 129/131 milestone PRs closed

5 of 19 merges changed behaviour; Other drew the most review

MERGES THAT MATTER

PRODUCT AREAS FIRST · BY HUMAN REVIEW

#35724 cmpctblock: Improve logging of cmpctblock message reconstruction statistics [part of prefill series]

Enhances the logging for cmpctblock (compact block) message reconstruction, providing more detailed statistics.

Other NETWORK & PRIVACY **29** review comments · **5** ACKs · by Vasil Dimov

#36294 mempool: Remove -persistmempoolv1 option

Removes the deprecated -persistmempoolv1 option, simplifying the mempool persistence mechanism.

Mempool & Policy MAINTENANCE & TECH DEBT **9** review comments · **1** ACKs · by Fabian Jahr

#36535 policy: sum package weight in int64_t

Updates the transaction package weight calculation to use int64_t, preventing potential overflows for very large transaction packages.

Mempool & Policy SECURITY & CONSENSUS **2** review comments · **1** ACKs · by Ferdinando M. Ametrano

#36440 test: speed up functional tests by removing avoidable waits

Significantly accelerates the functional test suite by eliminating unnecessary waiting periods, allowing for faster test execution.

Tests & QA PERFORMANCE & OPTIMIZATION **11** review comments · **4** ACKs · by Vinicius Cestari

#36425 guix: declare python-setuptools in codesign manifest

Updates the Guix build system to correctly declare python-setuptools in the codesign manifest, ensuring the reproducible build process remains robust.

Build & CI MAINTENANCE & TECH DEBT **9** review comments · **2** ACKs · by William Madden

WHERE THE WORK LANDED
