RELEASE **Bitcoin Core 32.0** · Release candidate testing (32.0rc3) 127/129 milestone PRs closed

16 of 42 merges changed behaviour; Node & Storage drew the most review

MERGES THAT MATTER

PRODUCT AREAS FIRST · BY HUMAN REVIEW

#35037 ipc: support per-address max-connections options on -ipcbind

Enhances the Inter-Process Communication (IPC) interface by allowing users to specify a maximum number of connections for each individual IPC binding address.

Node & Storage · NETWORK & PRIVACY · **57** review comments · **5** ACKs · by Enoch Azariah

#34374 kernel: use struct-based logging and simplify logging interface

Updates the core logging system in the kernel module to use a structured format and simplifies its interface.

Consensus & Validation · STRATEGIC INITIATIVES · **36** review comments · **3** ACKs · by stickies-v

#36340 util: cap Sock::WaitMany timeout to fix -rpcclienttimeout=0 on macOS

Fixes an issue on macOS where setting the RPC client timeout to zero would cause unexpected behavior.

Node & Storage · WALLET & USER TOOLS · **29** review comments · **3** ACKs · by kriss39

#32895 wallet: Prepare for future upgrades by recording versions of last client to open and decrypt

Enhances the wallet's internal structure by recording the Bitcoin Core version that last opened and decrypted it.

Wallet · WALLET & USER TOOLS · **28** review comments · **5** ACKs · by Ava Chow

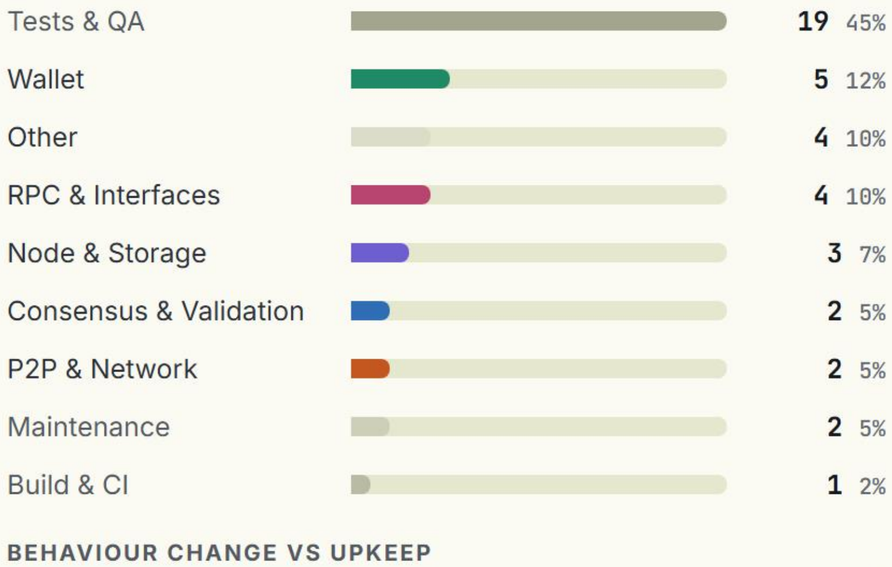

#34844 util: Add util::NotNull<SmartPtrType>

Introduces a new utility type, util::NotNull, to ensure that smart pointers cannot hold null values, thereby preventing common programming errors.

Node & Storage · MAINTENANCE & TECH DEBT · **28** review comments · **3** ACKs · by MarcoFalke
